DETAILED ACTION

The claims 1-19, 21, 25-26 and 29 are pending in the instant office action.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I. Claims 1-15, 21, 25-26, drawn to a fusion protein complex comprising SEQ ID NO: 2 {or choose SEQ ID NO: 4 or SEQ ID NO: 6 of claim 15 or alternatively elect a fusion of specific component A of claim 2 (such as, type two cytokines of claim 2) and specific component B of claim 7 (such as DAP-kinase 2 (DAPk2))}.

Group II. Claims 16-19, drawn to an isolated nucleic acid encoding a fusion protein complex comprising SEQ ID NO: 2 {or choose SEQ ID NO: 4 or SEQ ID NO: 6 of claim 15 or alternatively elect a fusion of specific component A of claim 2 (such as, type two cytokines of claim 2) and specific component B of claim 7 (such as DAP-kinase 2 (DAPk2))}.

Applicant is also required to elect those claims comprise the elected fusion complex of group I or Group II.

The inventions listed in Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or Corresponding special technical features for the following reasons:

The technical feature shared by groups I-II is a fusion protein comprising binding domain molecule and protein kinase.

However; fusion protein comprising binding domain molecule and protein kinase does not constitute a "special technical feature" as defined by the PCT Rule 13.2, because it does not claim a feature which defines a contribution over the prior art as fusion protein comprising binding domain molecule and protein kinase is taught by Littman et al (US PAT 5670324).

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
